Stengl, Richard F ...

...SPECIFICATION the type normally found in very high volume mailing facilities, such as credit card operations, public utilities, mail order organization, corporations, magazine subscriptions, insurance companies, and a host of other organizations...

...In a typical arrangement of such an apparatus, a computer printer may print customers monthly **statements** of their credit card transactions for the month, which may require several pages for each customer and may therefore be printed on a web in one or two up configuration. The web is fed through a suitable...

...machine which separates the individual sheets laterally, so that each page of each customer's **statement** becomes an individual sheet. The sheets are fed to an **accumulator** which stacks them appropriately to form a properly organized collation for each customer. The collations...

...the feed deck which add additional insert material to the collations of each customer's **statement**, such as advertising flyers, announcements of services, promotions, sweepstakes (more typically associated with

magazine subscriptions...
...certain type of insert material must be included with the final
collation that is inserted into an envelope and mailed to a customer
that cannot be processed by the normal components...

...printed forms, sheets, etc., in a single collation, such as a quarterly
customer insurance premium **statement** and a personalized solicitation
for the customer to buy additional insurance. Since neither of these...
